

NORTH WOODSTM

Fresh Pine Scent
Product #158

Pine Deodorizing Cleaner

PRODUCT DESCRIPTION

North Woods is composed of a combination of synthetic detergents and real pine oil. This fast-acting formulation is designed to emulsify and safely remove all types of grime, grease, oil, dye, carbon, rust, and other soils from all metal, stainless, concrete, rubber, plastic, porcelain, vinyl, formica, and other hard surfaces. Following effective cleaning, the pine oil leaves a fresh pine fragrance which lingers to provide residual deodorizing protection. This product wipes or rinses clean leaving no oily film or residue. Environmentally safe, North Woods is non-toxic, non-flammable, and biodegradable.

APPLICATION & MAINTENANCE

North Woods is readily soluble in water and some experimentation with different dilution ratios will allow you to determine the most appropriate concentration for your particular application. Below are some recommendations for dilution ratios for some general applications.

For heavy duty cleaning dilute 25 ounces of North Woods per gallon of water (1:5).

For medium cleaning dilute 8-12 ounces of North Woods per gallon of water (1:10 - 1:16).

For light duty cleaning dilute 2-4 ounces of North Woods per gallon of water (1:64 - 1:32).

SPECIFICATIONS

Active Ingredients	Synthetic detergents and pine oil
pH	12.5 ± 0.5
Free Ammonia	None
Free Alkali	None
Free Acid	None
Phosphates	None
Abrasives	None
Color	Yellow
Odor	Pine
Solubility in Water	100%
Freeze/Thaw Stability	3 cycles
Shelf Life	Min.1 year (30°F.-125°F.)
Flash Point	None
Weight Per Gallon	8.6
Biodegradable	Yes
Soil Suspension	N/A

SAFETY INFORMATION

Health	1
Flammability	0
Reactivity	0
Personal Protection	B

CAUTION: Contains alkaline detergents. May cause irritation in undiluted concentrations. If ingested, give vinegar, lemon or orange juice. Follow with olive oil. Induce vomiting with oil of ipecac. External contact, flood with water, wash with vinegar, rinse with water. In the event of eye contact, flush with plenty of clean water. **Contact physician immediately.** Contains (2-Methoxyethoxy) Ethanol CAS# 111-77-3. For complete information consult MSDS sheet.
