

CITRU-GEST

Citrus Solvent Cleaner/Degreaser

Citru-Gest quickly and effectively dissolves protein soils, heavy concentrations of grease, oils, ink, gum and soil from virtually any hard surface. With the pleasant fragrance of oranges and grapefruit, Citru-Gest resolves most stubborn malodor problems and emulsifies built up deposits in drains and grease traps so they simply rinse away. Citru-Gest removes greasy road soil, tar, and pine pitch from automotive and hard surfaces, degreases and cleans concrete, metal, and engines. Citru-Gest dissolves a wide range of adhesives making it highly effective at cleaning up residues left by the removal of vinyl tile and carpet as well as labels and decals. Citru-Gest is biodegradable and non-corrosive to metals and most hard surfaces.

APPLICATION & MAINTENANCE

Although recommended dilutions of this product are safe to use on most plastic and painted surfaces, it is advisable to pretest surfaces prior to general application. Undiluted material should not be allowed to stand for extended periods on some painted surfaces as peeling may result. When diluted with water Citru-Gest will turn white, but this will not effect it's cleaning action.

Drains and grease traps-To maintain drains and traps pour in 4-8 ounces, allow to stand for one hour and then flush with hot water. For garbage disposals add 4-8 ounces, allow the solution to stand for 5-10 minutes and then flush clear with hot water.

Greasy surface buildup-Mix 4 ounces per gallon of warm water and apply liberally to greasy counter tops, walls, floors, equipment, etc. with a mop, sponge or sprayer. Allow the solution to work for approximately 5 minutes, then rinse clean with warm water.

Malodor control-For elimination of problem odors mix 4-10 ounces per gallon of water and apply this material directly to the problem area with a sprayer.

Degreasing Concrete-For areas where oil, hydraulic fluid, brake fluid, or grease have penetrated into concrete, apply Citru-Gest full strength, allow it to stand for several minutes and then agitate with a brush or scrubbing machine. For less severe soiling conditions Citru-Gest may be diluted 1:1 with water and applied in the same manner.

Mastik Removal-To remove black solvent-based mastiks, apply Citru-Gest full strength, allow it to stand for several minutes and then agitate with a brush or scrubbing machine. To remove tan water-based mastiks, apply Citru-Gest full strength, allow it to stand until mastik achieves a soft, sponge like consistency. Remove the mastik by scraping with a razor scraper or scrubbing with a nylo-grit brush or "Hi-Pro" type stripping pad.

SPECIFICATIONS

| | |
|-----------------------|----------------------------------------------------------------|
| Active Ingredients | 80% D-Limonene, 20% Water-Soluble Solvents & Surfactants |
| Free Ammonia | None |
| Free Alkali | None |
| Free Acid | None |
| Phosphates | None |
| Abrasives | None |
| Color | Light Yellow |
| Odor | Citrus Fragrance |
| Solubility in Water | <1.0% |
| Freeze/Thaw Stability | Infinite |
| Shelf Life | 2 Years Min. |
| Flash Point | 120°F. |
| Weight Per Gallon | 7.1 lbs |
| Biodegradable | Yes |
| Soil Suspension | Excellent |

SAFETY INFORMATION

| | |
|---------------------|---|
| Health | 1 |
| Flammability | 2 |
| Reactivity | 0 |
| Personal Protection | B |

CAUTION: This product contains natural citrus solvents. Harmful if swallowed, do not take internally. Avoid skin and eye contact. Combustible liquid, keep away from heat, sparks or flame. In case of eye or skin contact, flush area with plenty of water.

Obtain immediate medical attention. If swallowed, do not induce vomiting, **get immediate medical attention. Keep out of reach of children.** For industrial use only by trained personnel. For detailed information consult MSDS Sheet.
