

No O_{DOR} STRIPPER EMULSIFIER

Stripper For All Water-Based Sealers And Finishes

This remarkably effective stripper rapidly dissolves multiple layers of floor finish without the offensive odors often associated with floor finish strippers. Utilizing top quality water miscible solvents, *N.O.S.E.* strips multiple coats of finish quickly and easily, with virtually no odor. Perfect for use in hospitals, nursing homes, hotels, and any facility that is occupied while stripping procedures must be performed.

APPLICATION & MAINTENANCE

Dilute 16 ounces of *N.O.S.E.* (1:8) for routine stripping (1-10 coats), 32 ounces (1:4) for medium build-up (11-15 coats), 64 ounces (1:2) for heavy build up (15-25 coats), or 128 ounces (1:1) for severe build-up (25+ coats) per gallon of **COLD water only**. Apply stripping solution with a mop, and let it stand for five minutes. Removing heavy finish build-up may require scrubbing with a 175-300 rpm buffing machine equipped with a black stripping pad. Remove the dissolved finish and solution with a wet vacuum. Any residual dissolved floor finish not removed by vacuuming should be removed by light rinsing or damp mopping. Allow the floor to dry thoroughly before applying any of Perma's high quality finishes. ***N.O.S.E.* is not recommended for use on asphalt tile or older linoleum tiles as it may remove the dye, particularly from tiles that are dark colored.**

SPECIFICATIONS

Active Ingredients	Water miscible solvents, amine complexes, alcohol ethoxylates
pH	12.5 - 13.2
Free Ammonia	None
Free Alkali	0.5%
Free Acid	None
Phosphates	None
Abrasives	None
Color	Light Yellow
Odor	Moderate
Solubility in Water	100%
Freeze/Thaw Stability	3 cycles
Shelf Life	Min. 1 year (30°F.-125°F.)
Flash Point	Above 200° F.
Weight Per Gallon	8.8
Biodegradable	Yes
Soil Suspension	Excellent

SAFETY INFORMATION

Health	2
Flammability	0
Reactivity	0
Personal Protection	B

Read Safety Data Sheet thoroughly before using.

IRRITANT

WARNING: This product contains 2-Amino Ethanol CAS #141-43-5, an alkaline ingredient which may cause irritation in undiluted concentrations. Protective eye glasses and gloves should be worn during use. **FIRST AID:** In the event of skin or eye contact, flush thoroughly with clean water for 15 minutes. If skin irritation occurs seek medical treatment. In the event of eye contact or ingestion seek immediate medical treatment.
