

# AQUA-TREAT

## Multi-Purpose, Water-Based Dry Mop Treatment

Aqua Treat is a special water-based formulation for treating dust mops and cloths. Unlike oil-based treatments which can leave a film and cause separation, mottling, or adhesion problems with many floor coatings, Aqua Treat is 100% compatible with all modern floor-finishing materials. Aqua Treat will quickly penetrate dust mops and cloths, providing extended dust- and dirt-retention capabilities. Aqua Treat and soils can be easily removed from dry mops and cloths simply by washing with detergent and water. Aqua Treat may be safely used on asphalt, vinyl, asbestos, linoleum, terrazzo, marble, ceramic tile, sealed wood and concrete floors. Aqua Treat is non-toxic, non-flammable, non-corrosive, and biodegradable.

### APPLICATION & MAINTENANCE

Apply mop treatment to a clean mop at approximately one ounce per eight ounces of mop weight. Do not use this product on mops previously treated with oil-based mop treatments. Allow the mop to stand overnight before using it on floors. Shake mop thoroughly after use to dislodge loose dirt, and retreat as necessary. When a mop becomes dirty simply wash it with warm water and detergent, allow it to dry thoroughly and retreat it.

### SPECIFICATIONS

Nonvolatile Solids	18%
Total Active	20%
pH	8.8 - 9.8
Gloss	N/A
Color	Light green
Weight Per Gallon	8.4
Shelf Life	1 year minimum at room temperature
Freeze/Thaw Stability	3 cycles minimum
Water Resistance	N/A
Removability	Detergent and Water

### SAFETY INFORMATION

Health	1
Flammability	0
Reactivity	0
Personal Protection	A

This material is not a hazardous mixture as defined in 29 CFR 1919, 1200, and M.G.L. c. 111F. Safety glasses and gloves should be worn during application and handling. If ingested, drink milk, water, or fruit juice and induce vomiting with oil of ipecac. In the event of eye contact, flush area with water for 15 minutes. **Consult with a physician.** Read Material Safety Data Sheet thoroughly before using.
